

Semiconductor companies are changing the way the world works

Video Transcript

Semiconductor companies are changing the way the world works and plays

Accenture is helping lead the way. Change is our business, and we can make it yours.

What keeps a semiconductor CEO up at night?
The challenge and promise of new markets.

Moving R&D beyond its limits.
Building supply chain resiliency.
Working across the ecosystem.

Mergers
Acquisitions
New competitors
Geopolitical shifts

Accenture can help. We're here to alleviate your fears.

We know your industry then and now.

Video Transcript

We work with companies across the semiconductor ecosystem of Integrated Design Manufacturers, IP designers, fabless, foundries and equipment manufacturers.

We are helping the world's semiconductor giants embrace the cloud.

Merge with wisdom.

Leverage analytics for planning and execution.

Help design the next generation of chips.
Build scalable and flexible supply chain.

Let there be change.

With Accenture. A trusted partner.

We're here to help.
